ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2007

1. BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention.

In accordance with section 122(3) of the Municipal Finance Management Act (Act No. 56 of 2003), the Municipality has adopted Standards of GAMAP and GRAP issued by the Accounting Standards Board during the financial year. The Municipality has availed itself of the exemptions as granted to high capacity Municipalities in Government Gazette 30013 dated 29 June 2007. The exemptions are in respect of the application of certain International Accounting Standards as set out in Note 33 to the Annual Financial Statements.

The Municipality may have transactions, events or balances that are outside the ambit of GAMAP and GRAP but which are included in Standards of International Public Sector Accounting Standards (IPSAS) issued by the International Federation of Accountants — Public Sector Committee, International Accounting Standards (IAS) issued by the International Accounting Standards Board or Generally Accepted Accounting Practice issued by the South African Accounting Practices Board and the South African Institute of Chartered Accountants.

The principal accounting policies adopted in the preparation of these annual financial statements are set out below.

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GAMAP or GRAP.

2. PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand.

3. GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

4. HOUSING DEVELOPMENT FUND

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Housing selling schemes, both complete and in progress at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

5. RESERVES

5.1 Capitalisation Reserve

On the implementation of GAMAP/GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of property, plant and equipment have been transferred to a Capitalisation Reserve instead of the accumulated surplus in terms of a directive (budget circular) issued by National Treasury. The purpose of this Reserve is to promote consumer equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus.

CITY OF uMHLATHUZE
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2007 (continued)

5.1 CAPITALISATION RESERVES (continued)

The balance on the Capitalisation Reserve equals the carrying value of the items of property, plant and equipment financed from the former legislated funds. When items of property, plant and equipment are depreciated, a transfer is made from the Capitalisation Reserve to the accumulated surplus.

When an item of property, plant and equipment is disposed, the balance in the Capitalisation Reserve relating to such item is transferred to the accumulated surplus.

5.2 Government Grant Reserve

When items of property, plant and equipment are financed from government grants, a transfer is made from the accumulated surplus to the Government Grants Reserve equal to the Government Grant recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury.

When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus. The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus.

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus.

5.3 Donations and Public Contributions Reserve

When items of property, plant and equipment are financed from public contributions and donations, a transfer is made from the accumulated surplus to the Donations and Public Contributions Reserve equal to the donations and public contributions recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Donations and Public Contributions Reserve to the accumulated surplus. The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of property, plant and equipment financed from donations and public contributions. This is also applicable to the sale of developed land, as the infrastructure remains the property of the Municipality.

When an item of property, plant and equipment financed from Donations and Public Contributions is disposed, the balance in the Donations and Public Contributions Reserve relating to such item is transferred to the accumulated surplus.

5.4 Insurance Reserve

An insurance reserve is maintained to cover the excess on claims that may occur. Insurance premiums are not charged to the reserve. Contributions are made on an ad hoc basis depending on the status of the reserve.

CITY OF uMHLATHUZE
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2007 (continued)

6. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, is stated at cost, less accumulated depreciation. Heritage assets, which are culturally significant resources and which are shown at cost, are not depreciated owing to the uncertainty regarding their estimated useful lives. Similarly, land is not depreciated as it is deemed to have an indefinite life.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified except where the impairment reverses a previous revaluation.

Where impaired land and buildings are revalued, the increase in value of land and buildings are recognised as revenue to the extent that it reverses the impairment loss previously recognised as an expense.

The cost of an item of property, plant and equipment acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets was measured at its fair value. If the acquired item could not be measured at its fair value, its cost was measured at the carrying amount of the asset given up.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met.

Depreciation is calculated on cost, using the straight-line method over the estimated useful lives of the assets. The annual depreciation rates are based on the following estimated asset lives:

	Years		Years
Infrastructure		Other	
Roads and Paving	15-30	Buildings	30
Pedestrian Malls	20	Specialised vehicles	10
Electricity	20-30	Other vehicles	3-7
Water	15-20	Office equipment	3-5
Sewerage	15-20	Furniture and fittings	7
Housing	30	Watercraft	15
Community		Bins and containers	5-10
Buildings	30	Specialised plant and equipment	10-15
Recreational Facilities	20-30	Other items of plant and equipment	2-5
Security	5	Landfill sites	15

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

7. LEASES

The Municipality as Lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment subject to finance lease agreements are capitalised at their cash cost equivalent and the corresponding liabilities are raised. The cost of the item of property, plant and equipment is depreciated at appropriate rates on the straight-line basis over its estimated useful life. Lease payments are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred.

CITY OF uMHLATHUZE
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2007 (continued)

7. LEASES (continued)

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are expensed as they become due.

The Municipality as Lessor

Amounts due from lessees under finance leases or instalment sale agreements are recorded as receivables at the amount of the Municipality's net investment in the leases. Finance lease or instalment sale income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

8. INVESTMENTS

Financial instruments, which include listed government bonds, unlisted municipal bonds, fixed deposits and short-term deposits invested in registered commercial banks, are stated at cost.

Where Investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

9. INVENTORIES

Consumable stores, raw materials, work-in-progress and finished goods are valued at the lower of cost and net realisable value. In general, the basis of determining cost is the first-in, first-out method.

Redundant and slow-moving inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values.

10. RECEIVABLES

Accounts receivable are carried at anticipated realizable value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Bad debts are written off during the year in which they are identified. Amounts that are receivable within 12 months from the reporting date are classified as current.

11. REVENUE RECOGNITION

11.1 Revenue from Exchange Transactions

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue in the period of consumption. Where meters cannot be read during a particular month, they are provisionally billed with the necessary adjustments made in the month in which they were read. Revenue from the sale of electricity prepaid meter cards are recognised at the point of sale.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

CITY OF uMHLATHUZE
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2007 (continued)

11. REVENUE RECOGNITION (continued)

Service charges from sewerage are based on the water consumption on each developed property using the tariffs approved from Council and are levied monthly.

Service charges from sewerage are based on the water consumption on each developed property using the tariffs approved from Council and are levied monthly.

Interest and rentals are recognised on a time proportion basis. Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariffs. This includes the issuing of licences and permits.

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

Revenue from the sale of goods is recognised when the risk is passed to the consumer.

Revenue from public contributions is recognised when all conditions associated with the contribution has been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment is brought into use. Where public contributions have been received but the municipality has not met the condition, a liability is recognised.

11.2 Revenue from non-exchange transactions

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis.

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received.

Donations are recognised on a cash receipt basis or where the donation is in the form of property, plant and equipment, when such items of property, plant and equipment are brought into use.

Contributed property, plant and equipment are recognized when such items or property, plant and equipment are brought into use.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councilors or officials is virtually certain.

12. CONDITIONAL GRANTS AND RECEIPTS

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

CITY OF UMHLATHUZE
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2007 (continued)

13. PROVISIONS

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting sheet date and adjusted to reflect the current best estimate.

14. CASH AND CASH EQUIVALENTS

Cash includes cash on hand and cash with banks. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks and investments in financial instruments, net of bank overdrafts.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

15. RETIREMENT BENEFITS

The municipality provides retirement benefits for its employees and councilors. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. The defined benefit funds, which are administered on a provincial basis, are actuarially valued tri-annually on the projected unit credit method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities.

16. BORROWING COSTS

Borrowing costs are recognised as an expense in the Statement of Financial Performance.

17. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003).

Unauthorized expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

18. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

19. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

20. COMPARATIVE INFORMATION

20.1 Current year comparatives:

Budgeted amounts have been included in the annual financial statements for the current financial year only.

20.2 Prior year comparatives:

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

21. INTANGIBLE ASSETS

The acquisition of computer software and expenses on website costs are recognized as intangible assets and are amortised on a straight-line basis over their estimated useful lives.
